

## Loops

```
fruits = ['Apple', 'Orange']  
  
for fruit in fruits:  
    print(fruit)
```

```
x = 0  
while x < 100:  
    print(x)  
    x += 1
```

# Conditionals

```
if condition:  
    print('This will be executed')  
else:  
    print('Otherwise, it is this one')
```
