# Automatic closing

```
with open('filename', 'r', encoding='utf-8') as the_file:
    for line in the_file:      # the_file is iterable, yeii !
        print(line.rstrip())  # Removing the trailing \n
                               # since print() adds one.
```
