

## Conditional: if / else

```
if foo:
    if bar:
        print(baz)
    else:
        print(q)
```

```
if foo:
    if bar:
        print(baz)
else:
    print(q)
```

# Nesting and Indentation

Read `book_chapter.txt` into Python, line by line,  
Print the first 50 characters of each line, appending an  
ellipsis ... at the end, if necessary.
