

```
someList = [1,7,2,4,14,11,9,3]
for item in someList:
    if item <= 10:
        continue
    else:
        print(item)
```

```
someList = [1,7,2,4,14,11,9,3]
for item in someList:
    if item <= 10:
        continue

    print(item)
```

I've got a little time on my hands
and I'm not too picky:
